Easy Health Call 911 on your mobile phone. You'll get to a voice menu. Call 2 for an ambulance. When the ambulance arrives, the paramedic will restore your health for about \$1,000. After he refills your health, kill him to get your money back. -From: Mike Easy money Go to an ATM, then cause a traffic jam in the area. Wait for someone to take money from the ATM, then kill them. Make sure to block any nearby roads so the ambulance can't reach the murdered victim. Take the money they threw on the ground. Then run a short distance and return. The money should have gotten broken up on the ground. You can repeat this as many times as you want. You can also kill more people who take their money from the ATM to increase the amount of money they respawns. -From: Khairo161 Find an area with a lot of people. Then place yourself a decent distance away, and activate the Spawn Jetmax code. The boat should give birth over people, fall on them, and kill them without raising your desired level. Then you get the money dropped by the people who were killed. Repeat this procedure as many times as you want. -From: Vernon Reis After completing all 30 Stevie vehicle thefts, go to the garage in South Bohan. Then enter one of the Spawn vehicle codes and take the vehicle to the garage to get the reported amount of money if the vehicle is in excellent condition. Repeat this as many times as you want. -From: Elan Gedalia Cognoscenti: \$9,000 Comet: NRG-900 dollars: \$2,500 Sanchez: \$1,200 SuperGT: \$11,000 Turismo: \$11,000 After completing all 30 Stevie's vehicle thefts, take a taxi to Perseus on Pyrite Street and Bismarck Avenue. Walk to the Grotti car dealership with a baseball bat. Use your baseball bat to break open the window on the east side of the building near the tree that has a Turismo parked behind it. Try not to destroy this car. Take Turismo and take it to Stevie's store. Taking the Charge Island Bridge to Bohan is the best route. Path. will give you about \$10,000 for the car, depending on its condition. Then you can take a taxi back to the dealership and do it again. Steal an armored truck, and blow it up to get about \$1,100 of the piles of money around the wreckage. There is a breakdown in Aldeney at the intersection of Tudor and Port Tudor, near the prison where you visit Gerald. You can find a total of nine armored trucks arriving back-to-back. Heitzak one, then blocked the road. There's going to be another one. Blow them up one by one. There is a total of about \$1,100 in each truck, which is especially useful when you're just getting started or if you need money. Steal a Securicar, and blow it up to get about \$1,000 from the piles around the wreckage. To do this without getting a desired level, you need to drive it and destroy it until it catches fire and explodes. Don't attack with a gun or you'll get a two-star wanted level. If Smoking Securicar stops running and is still not on fire, use your mobile phone to call anyone, then hang up while they are calling. Securicar will restart, allowing you to do the last amount of damage to get it to catch fire and explode. Go to a strip club and kill the strippers. Everyone drops about five or six wads of cash, but all the guards will attack you. Easily lower desired level If you want to get rid of your desired level, just start a mission. The desired level will disappear immediately. If you were chased by police cars, the police would still be here. -From: D2 To lose your desired level, simply enter a safe house, and save your progress. When you wake up, the desired level will be lost. Engine repair If your vehicle crashes and won't start, call any number stored on your mobile phone or 911, and your engine will have to restart. Quick repair While in a vehicle, if you drive over a health package, your health will be restored and any damage to your car will be fully repaired. This is very useful playing online in a vehicle that has caught fire. Parking more vehicles Outside your first hideout is a small parking lot to park your vehicles and save them. Instead of parking your vehicles fully within the lines, you can park your vehicles partially within the lines to allow more vehicles to be parked and saved. -From: Zane At the start of the game it seems that you can only save two vehicles parked in the Residents Parking Only parking spaces in front of your den. However, if you can find other Parking Residents Only around town, you can also store vehicles there even if you don't have a safe house in these places yet. If you attempt to use the trick to keep more than two vehicles in any parking space, it will only work until you leave the current game session. If you shut down your system, play a multiplayer game, or load the latest storage, all but two of your vehicles will have disappeared. It either seems to be the two vehicles closest to the centre of the car park or two at random. Fast travel To avoid wasting time driving around the city, call a taxi. They will take you to your destination for your shipment, shops, safe houses, or even a point marker. You can skip through the taxi route, allowing you to travel across the city in about ten seconds. This can also be done during missions. Easy Assassin missions Most of the Assassin's missions can be more easily completed using a helicopter. Land in a high position overlooking your target, and use the sniper rifle to kill them. Easy headshots are sometimes difficult to get headshots, which count. With some practice, doing the following is an easy way to get headshots. Press [Auto-Aim], then use the correct analog stick to move the auto-target around your victim's body. Just barely move the right analog-stick as you're shooting. This puts bullets in the chest and head, and leads to an easy instant kill. Easy shots when you can, call Roman and tell him to send you a cab. Let the cab take you. You will be able to shoot people without stopping the driver. He'll also go through the cops and rule out as much as possible. When you're stuck, choose to end your journey to a destination with no desired level. Easy emergency vehicles Call 911 on your mobile phone. You will arrive at a voice menu that allows you to call the police by calling 1, an ambulance calling 2, or a fire truck calling 3. Select the vehicle of your choice and wait for them to arrive. They will stop and look around for the emergency, allowing you to easily steal their vehicle. Getting away from the police When you run away from the cops, you will have a circular area in which they will look for you. However, if you go out and another cop sees you, it changes. To use it to your advantage, you can barely get out of this circle, which you will see on your radar. Then, just sit there for about five seconds instead of the floor passing. If you're on a four-star level like or less, find a place with grass or sand. The cops will follow you, but they usually can't get out. Then you can just drive away. He did not want level when arrested When you are arrested by a police officer, instead of pressing A immediately, click on the right analog stick to bend over. You'll still be able to walk away, but you won't get a two-star wanted level. -From: reaver456 Calling for backup Sten a police car, and every time you're in press LB while your car is stationary. Select Call to Backup, and within minutes you'll have two cruisers full of police who will fight on your side if you don't shoot someone. Note: They will turn against you when they realize that you are not a police officer. Killing blind firing enemies To exterminate an enemy who is blind, to target his hand or hand while he is exposed. Once you hurt him, he'll usually stumble out of cover, giving you an easier murder. Killing pedestrians without You can kill most pedestrians by repeatedly running at them against walls. This is a good way to easily get money without notifying the police. Recovering health during missions You can leave the mission area and go to a Cluckin' Bell, hotdog stop, etc., and eat food to make up for your health if you're low and can't find a health package. This is especially useful in missions where there are no health packages on the horizon. Note: You can also take a taxi to these locations during shipments. Avoiding toll booths Drive through any toll booth with any emergency vehicle with sirens on. The escort booth will open the gate, and you will save \$5. Drive a normal car to the toll booth. As you approach, slow down and jump out, while making sure the car passes through the stand. Then walk past the kiosk, and get into your car. -From: Mike While in a vehicle or on a motorcycle, drive up to the toll booth. Stay on the other side of the stand. Nikos will take his hand out, but he won't put any money in the basket, and the gate will still open. Drive a motorcycle to the side of the pay toll way. You won't pay a toll if you can drive through the small gap in the sides. Free taxi rides Take in a taxi, but don't miss the ride after choosing your destination. When you're about two blocks away from your destination, break the window and start shooting. The cabbie will go out and run away, allowing you not to have to pay for the ride. You can also kill the taxi driver and take his money, so he's really paying you for the taxi ride. -From: DemonUrameshi Naruto Free internet access Some of your refugees have a computer in them that won't charge the \$1 fee. The Algonquin safehouse has a laptop on it, and it's a bit far from some of the cafes on the internet. Free health aid Enter an ambulance to get a slight increase in health. Free shotgun shells Enter a police cruiser to get five shotgun shells. Carbine Rifle Use a helicopter, boat, or just swim to get to happiness island. Go inside the first door of the Statue of Happiness. There must be a security guard with a shotgun rifle. Kill him to get the shotgun. Getting Desert Eagle early To get the Desert Eagle before you can buy it, kill the gun seller in the Broker he has equipped, and then get it from him. Note: This will prevent you from making future purchases on this site. This will also bodyguards with shotguns to hunt after you. M-4 assault rifle Go to easton area in Algonquin. At the Grand Iston terminal, he climbed the stairs in front. Continue around that floor until you see a small lake. Pass it until you see a turn to the left. Go to the left to get between a tall building and a smaller one. At the end of the hall, it's a dead end. Turn around and you'll see a bright orange trash can. Behind it is an M-4 assault rifle. Getting pistol and shotgun early The following is an easy way to start the game with full pistol and shotgun ammunition. Unlock storage in bed at Roman's house. Getting the knife is also helpful. Go outside Roman's house, and he killed some people. The police will show up. He killed a police officer. He's going to drop his gun. Take it, then immediately run to Roman's house, and sleep in bed. You can choose to save the game if you want. When you wake up, your desired level will be down, and you'll still have the pistol. Go outside and kill more pedestrians. When the cops show up, run up the stairs. Turn to the top of the stairs, and face the door going out of Roman's house. The cops are going to come through that door, and you can just pick them up with your new pistol. Watch your health, and don't worry about receiving the weapons. If your health gets low, you can sleep in bed. Wake up, and when you get out there's going to be a lot of guns. The shotgun's going to take longer because not

all cops use it. However, if you get into the police cars that have been abandoned outside the apartments, you can easily get five shells for the shotgun for each car you enter. Getting Remington shotgun early You can get the good shotgun early in the game by just going to the strip club. On exit, there is the office of a manager that you can enter. There's a big Remington shotgun on the floor that you can get. Claude outfit Kill Playboy X and get his penthouse. Then save the game and restart your Xbox 360 console. When you reload your saved game, look through your clothes, and you should have Claude's outfit (the main character in Grand Theft Auto 3). Everything from the leather jacket, the green loads, and the black shoes to the white stripe at the bottom should be there. Hidden shirt There is a secret Happiness Island shirt for him at the highest point at the base of the statue that can be achieved on foot. Looks like a bright red rectangle. Once received, Nikos will wear it automatically. It's a navy blue sweatshirt. The front shows the statue and reads Happiness is... and continues on the back with the word . . . land'. Niko in a bra To wear a bra, go to the clothing store called Modo, and walk up to the till. You have to be a female treasurer for this trick to work. Knife the till, and stand over her body for an hour game. Go back to Roman's apartment and go to the closet. You should now have the option to wear a bra. Wearing the bra will change npc dialogue, and you will start saying things to you like What the hell are you wearing man?! Lino Friddell Crime: Hit and Run Location: He and two of his friends are near Middle Park. As you approach the blip, they'll run east into the alley, and then they'll go north in an SUV parked there. If they make it, they'll leave and you'll have to go after them. Two easy ways to kill them are to drive down that alley and run them or drive down the alley to the north, and as they go for the SUV, and kill them. This also helps you block the SUV in case they do it there. Juan Haimo Crime: Burglary Location: Located near the northern end of Star Junction. When you get close, three bikes will take off from there to the east. Stand where they come out and shoot them before they get anywhere. Kill whoever you can. If anyone leaves, go after them. Hit the bike to make him fall, then drive over him or shoot him. Darren Covey Crime: Guns Dealing Location: Hiding with five of his friends in a parking garage in Purgatory. You can go up there over a ramp to the south. When you get the red targets, stop and get out of the car. Take off your sniper rifle and shoot people from that distance. Stand east of the dam. That way, they probably won't get a chance to hit you. You can also use the RPG in one of the cars to kill them, but the sniper rifle is cheaper and almost as effective. Leo Brodell Crime: Drug Trafficking Location: It is in a building just south of the three X buildings in East Holland. The entrance is on the north side, to the east of the building. When you stand in front of it, the entrance is on the left and on the right is a blue banner in the buildings that read Real Loose Clothing. The first one's only on the first landing. The second is on the other side, where the steps go up again. Just one level above that is the third person. The next level is clear. Another person stands in the of the next level. The last person hides on the roof, right around the corner and behind a small wall when you get out there. Christov Mahonvic crime: Great theft car location: it's in on fishmarket south, just north of broker bridge near the waterfront, with many garbage trucks parked to the south. One of the story missions also brings you to this exact building. All of them are hidden in there. Cut them from the south when you cross the fence. Anything that is not accessible in this way (for example, the person at the top level just to the left when you enter) should be killed up close. The rest should be easy kills with the sniper rifle without hitting you. Alderney Marty Boldeouv Crime: Gang Related Violence Location: Hiding in Acter, north of the gun store. Drive on the first road to the south of one in front of the store. You can use a rocket launcher to blow the car up front, doing a lot of damage to them. However, this is very expensive with little payment. Instead, use the sniper rifle, and kill everything you can from here. They're not coming to you. Approach and kill those still in hiding. You can do this easily without a single shot hitting you. Danny Hatmaker Crime: Weapons Dealing Location: Hiding in the Harbour Area in Normandy. These people also remain in place, around the large tanks nearby. Watch the map to see the targets above you, but most are at ground level. The last two are hidden among the containers in the southwest. Mervin Eskuchen Crime: Drug Trafficking Location: He sits with his friends at two Patriots in the west of TW@ Internet Cafe. Get close to them north using the road just east of the blip. When you get the red targets, get out of the car with an attack or shotgun, and target the men in the cars. You should be able to kill at least one of them by doing this. Often they also stop, and you can easily choose all four of the roads. If they move, get in your car again, and go after them. They drive very close around the blocks all the time. You can try to wait in a corner and blow them up with a rocket launcher, but this is unnecessary expensive. Frederick Harrison Crime: Grand Theft Auto Location: He and his friends hide in Tudor, near the old bridge. One of the men is in the south under the bridge itself. The rest is hiding on the bridge. As you go up, check behind you. They like to shoot you in the back. Use your sniper rifle when you can see them from afar. Follow the ramps a little to your right. Go to the levels. There are some hiding behind pillars here, but the main force is on the roof. As you climb, use your rifle to kill them. The latter stop at the northeast corner. Remember the Sprunk machine at the entrance to refill your health if necessary. Keep chasing Clarence, and follow McCleary's advice about not using your gun until you're on the second floor? Otherwise, Clarence will get into a vehicle and leave. If you wait until you're on the second floor, you'll climb to the roof. Once you've chosen Clarence's fate, you'll immediately get a three-star level he wanted, regardless of what you chose. You have to fight to get out. Since it's going down, you have a clear downward to coverage and it will take a lot of damage. To give yourself an advantage, park a fast car on the road near the opening at the gate at the start of the mission. Don't pull the gate. Use the stairs to your right to hunt. Once you have reached the roof and chosen its fate, get down to the level with the first aid kit (green box). As you lie it there on your way up, you'll know what level you're on and you can power it up. Go to the side of the building where your car is parked, and jump over the railing. You won't lose much health when you land. Sprint to your car, and get away from the cops. If done right, you shouldn't take a bullet from the police. Once a bunch of vehicles have accumulated, get over the bus, and use the *RPG* and grenades to destroy the vehicles and get the achievement. Create a traffic jam in a closed area, such as the *Booth Tunnel* by blocking both lanes with two vehicles. After the cars back, steal some of them and push them between the others, so there are three or four next to each other. Throw a grenade at the vehicles in front, then use a *RPG* to destroy the others. Steal ten vehicles and park next to each other, preferably in a smaller area, an internal corner, or the outside building so there is less chance the vehicles will push away when they explode. Then use a weapon to make at least one vehicle explode. You have to start a chain reaction and make the other vehicles explode. Park ten vehicles at any gas station around the pumps. Take an *RPG*, and take aim at the gas pump. With two shots, all ten cars will explode. *Easy Achievement* *Finish Him* Go to *Helitours* located in the lower right corner of the middle island. Then set the lap number to one, and start a helicopter race with very few opponents. *Easy One Man Army* achievement Go to the bridge that takes you to the second island and has train lines under it. Walk along the train lines to the second island before you are allowed to cross the bridge. When you're about halfway through, you need a six start wanted level. Then just stand on the train tracks for five minutes to get the breakthrough. You don't have to worry about the police because they'll be on the bridge above you so they can't shoot, and the helicopters are over you so you get cover from them. Go to the hospital on the northwest corner of *Algonkin*. You can also get there by dying in that general area. Get a bike. Set a *Waypoint* at the hospital or just remember the way you came. Drive to the nearby bridge that takes you to the third island. You don't have to have access to the third island for this trick to work. Slowly reverse backwards over the barricade on the bridge until you get a level six boot wanted. Then drive straight back to the hospital. To the right of the hospital as you're returning is a small red fence that you can bust through and get onto the elevated railroad tracks. Wait there for about five minutes to get the achievement. No cars can reach you on the train tracks and helicopters can't shoot accurately enough to hit you at motorcycle speed. Try to enter one of the locked municipalities early in the game to get an immediate six-star wanted level by taking a car on metro (or elevated train) lines. This can be done easily near the corner of *Grand Boulevard* and *Leavenworth Ave.* in *North Bohan* near the police station. From *Levnworth*, go left to *Grant*, and climb the little hill. When you reach the top of the hill, look to your left to find a very short wall above a metro tunnel. Drive a car over this short wall, then drive underground to *North Algonquin*. When you have a six-star level wanted, stop the you and stay there for five minutes to get the achievement. After the middle island is unlocked, steal a helicopter from the helipad in the southeast corner. Fly over any other area you haven't yet unlocked to automatically get a six-star level wanted. Fly off the map in any direction, and stay in the air. The police helicopters will only come after you go so far. After five minutes, you'll get the breakthrough. *Easy Upside Down's* *Beyond* Go to the airport runway in a fast car (*Infernos*, *Super GT*, police cruiser, etc.). There are small yellow ramps scattered on the grass next to the hallway. Locate one, drive back a good distance, then at full speed hit the ramp, so only half of your car actually hits the ramp. You need to take several spins to get the achievement. Go to the *Algonkin Bridge* that connects *Dukes* to *Algonkin*. Find the place where the lanes are separated on the bridge when it goes west. In the split is a small ramp. Hit this ramp at high speed to make your car roll over several times. Try to land in the lower area for more space to roll over. *Easy Walk Free* Achievement Get a four-star level wanted, then embark on a mission to get the achievement. Get on the airport runway in a car and then get out. This will immediately give you a level that wanted four stars. Then run or drive to the end of the corridor to get the achievement. Start picking up cops one by one. The desired level will increase as more of them are killed. After you get a four-star level wanted, get into a vehicle, and drive into the subway tunnel. Once you leave the flashing circle wanted and the desired level disappears, you will get the achievement. *Easy Achievement* *Wheelie Rider* Take a motorcycle and go to *Francis International Airport*. Go to one end of the aisle, start accelerating, and make a wheelie by pressing left analog stick down for 500 feet to get the achievement. The runway works best because you have a very long distance where you can drive perfectly straight without worrying about vehicles pulling out in front of you. *Achievements* Complete the indicated achievement to get the corresponding number of *Gamerscore* points: From the boat (5 points); Complete the first mission.
